THE FEDERAL INVESTMENT CO.,

MONEY CONDITIONS FORCE CONTINUED SELLING.

TO DRASTIC LIQUIDATION.

STOCK MARKET SUBJECTED

Close Furiously Active, With Everybody Trying to Sell and Prices Melting Away.

New York, Sept. 23.-The stock market was subjected to drastic liquidation to-day, and speculators of all classes, from the smallest to the greatest, threw over their holdings with increasing signs of disorder. There were a few pauses in the activity of the selling, but whenever the bears com-menced to bid for stocks in the fear that they were overextending their short account, it proved to be so easy to get stocks count, it proved to be so easy to get stocks that the offering down of prices was constantly renewed, with a constant uncovering of fresh stop-loss orders, which tumbled stocks upon the market in heavy volume. The closing was furiously active, and with prices still pursuing a tapidly downward course. The growing difficulty of borrowing money to carry speculative holdings of stocks on markin was the root of the trouble. Yesterday's moderate calling of loans by banks, instead of relieving the trouble, seemed to aggravate it. The disturbance of the money market was due in some part to the operation of the forces of relief, which were through new and unactistomed channels. Thus the high rate for money resulting from yesterday's loan contraction offered an inviting opportunity for all who had available deposits in the banks to draw out their deposits and replace them on loan in the stock market.

SHIFTING LOANS.

In the stock market.

SHIFTING LOANS.

This was done by many classes of depositors all the way from those with private accounts up to the large banks of the interior which keep many millions on deposit with New York banks. This process, if carried out in a thoroughly systematic and orderly manner, would constitute simply a transfer of book accounts. No increase or decrease of the supply of loanable funds is involved, but the deposits withdrawn from the banks to be loaned had to be replaced by heavy calling of loans put out by the banks. This shifting process was largely responsible for the continual flurries in money. The sentiment in the street was decidedly upset by the conviction that no relief is immediately available for the stringent condition of the supply of money. The early contribution of nearly a million dollars to the market through the Subtreasury operations was nearly wiped out by yesterday's customs collections, and to-day there was deposited at the Subtreasury \$250,000 for telegraphic transfer to Chicago and \$170,000 for New Orleans, While part of the withdrawals of deposits by interior banks were reloaned here, other sums were shipped away by express to meet the crop requirements.

DROP IN EXCHANGE. SHIFTING LOANS.

DROP IN EXCHANGE. DROP IN EXCHANGE.

The drop in New York exchange at Chlcago from par to 30 cents discount reflected the increasing pressure upon this center for funds, notwithstanding the higher level of money rates. It was noticeable also that the sterling exchange rate falted to yield to any material extent. The jump in the prices of wheat and cotton has checked the export buying and the making of exchanges. Private discount in London rose above the bank rate to-day, and it is generally expected that the bank rate will be advanced to 4 per cent on Thursday, and such obstacles were interposed to the movement of gold to New York as are possible. The amount of commissions exacted by brokers for time loans is growing and there are complaints of scarcity in other departments of the money market, owing to the withdrawals, to take advantage of the high ruling rate for call loans. The considerable shrinkage to-day in the prices of securities involved calls for additional collateral on loans, which was a further factor in the pressure in the money market. The confidence in values, which has been so persistently maintained, received a decided setback in face of this combination of circumstances.

SELLING HEAVY drop in New York exchange at Chl

At least one powerful speculative combination liquidated accounts to the extent of between 50.600 and 100.000 shares of various stocks, most largely of Missouri Pacific, One of the most important mainstays of the recent market was thus withdrawn. An opening lift of 2 points in St. Paul was the only important attempt to contest the declining tendency from the start. Last prices show that the most important stocks are from 2 to over 3 points lower than they were last night. The downward impulse to stocks caused some additional weight to be given to the reports of disorders in the coal region, unfavorable crop reports both for grain and cotton, and the strained relations between Great Britain and Venezuela, but the money situation could be receased to the stock market a pessimistic view of Wabash's annual report caused weakness in the stock. President Ramsey's statement that further large expendence of the stock market a pessimistic view of Wabash's annual report caused weakness in the stock. President Ramsey's statement that processing to same and the processing to the stock market a pessimistic view of Wabash's annual report caused weakness in the stock. President Ramsey's statement that processing to same and the processing to the stock market a pessimistic view of Wabash's annual report caused weakness in the stock. President Ramsey's statement that processing to same and the processing to the processing the processing to the processing to the processing the processing to the processing the processing the processing the processing the processing that the processing the processing that the processing that the processing that the processing the processing that the processing that the processing that the processing the processing

between Great Britain and Venezuela, but the money situation overwhelmed all other conditions.

(Bends were active and weak. Total sales, par value, \$5,55,600. United States 2s coupon and the 2s advanced ½ per cent and the 2s registered declined ½ per cent on the last call.

Wall Street Gossip. ted by Francis, Bro. & Co., 214 North Fourth street:

Operations for London account here amounted to about 15,000 shares, pretty evenly divided between purchases and sales. Mr. Keene was credited with having sold in London before opening here.

Illinois Central—Some amusement was caused in financial circles to-day by a published statement that insiders were selling toeir holdings of I. The statement was somewhat contradictory as it said that the favorable showing of company's annual report failed to stimulate any activity in stock and then added that "insiders were taking profits after holding on for several months, and the publication of (annual) report was used as a basis on which to sell." As a matter of fact, only 6,700 shares of Illinois Central stock were sold yesterday.

St. Paul-The early rise in St. Paul was accompanied by the talk of Standard Oil buying and possible 'rights,' etc. On the advance, however, there was good commission-nouse selling, some of it by Standard Oil brokers. The chief sellers were Rutter & Gross, Sharp & Bryan, Hairre, Gates & Co. and Simmons & Stade. The room traders also sold it freely.

Missouri Pacific—The decline in Missouri Pacific was due chiefly to heavy selling openly by Butler Briss. who were also said to have been sellers of nearly 190,000 shares of various stocks yesterday and to-day. The firm was a larger lender of money.

Atchison—In a sharp attack on Atchison, both preferred and common stock, a few bears made use of story from Philadelphia that interests alled to the Pennsylvania Railroad were unloading the large block of this stock. There was general tellef, however, that free selling of Atchison shares was due to the manipulation of the pool in which Rockefeller interests are believed to figure. It was significant that brokers that have lately been very bullish on Atchison sold largely to-day.

dent Ramsey's statement that further large ex-penditures would be necessary to keep the Wa-bash in shape to compete with its strong com-petitors practically offnet the favorable effect of last year's increase in earnings.

WHEAT JUMPS FIVE CENTS, THEN DROPS AS SUDDENLY.

SHORTS IN SEPTEMBER OP-TION BADLY SCARED.

Some of the Longs Dispose of About Two Million Bushels Around the Top Prices.

Chicago, Sept. 22.-Sept. wheat was again the leading feature of the Board of Trade to-day, and under the influence of heavy buying by shorts the price advanced by jumps and bounds until a gain of as had been made. Then there was just as sudden a drop and the close was unchanged. Dec. closed 15c lower. Sept. corn closed to lower, while Dec. was unchanged. Dec. oats were 15c higher, with Jan, provisions from 25c to 16c higher.

to lice higher, with Jan. provisions from Nicto lice higher.

WHEAT.

Fears of manipulation in Sept. wheat gave shorts a had scare early in the session today, and as a result of their frantic struggles to get to cover, the price of that commodity went soaring. Taking advantage of the big advance in prices some of the local longs disposed of much of their holdings, it being reported that in the neighborhood of 2,002,009 bu. changed hands. With the demand from shorts satisfied, prices declined as rapidly as they had previously alvanced, and Sept. closed unchanged at No. after making the low score of 194c. Dec. opened unchanged at 70%,000%c, declined to 89c. closing the lower at 68%,000%c. Primary receipts were 1,582,000 bu., against 1,80,000 a year sgo. Clearances of wheat and four were equal to 28,000 bu. Bradstreet's reported a total increase of wheat of 288,000 bu. compared with an increase of 5,557,000 bu. compared with an increase of 5,567,000 bu. last year; Minneapolis and Duluth reported receipts of 1,216,000 cars and local receipts were 310 cars, four of contract grade, making a total for the three points of 1,236 cars, against 1,481 last week and 1,515 a year 850.

CORN.

Corn was firm to-day on wet weather, with predictions of a centinuance of the same. There was considerable profit taking but the main feature to trade was the active buying of Dec. by commission-housea. Sept opened is to be higher, at 625/62c, but declined to 61c, closing lower at 618c. Dec. opened is to 3c higher, at 458c to 459c, and, after advancing to 459c, dropped back to 459c. The close was unchanged at 459c. Local receipts were 489 cars, with 81 of contract grade.

OATS.

OATS. There was little interest in the oats pit to-day, the chief feature being covering by Sept. shorts. The market was steady throughout the entire session, and fluctuations were within a narow range. Rains throughout the Central West helped to maintain prices. Dec. opened unchanged to the higher, at 30% 30% c. rose to 20% c. only to drop back to 30% 30% c. The close was ich higher, at 30% c. Local receipts were 23 cars.

PROVISIONS.

Provisions exhibited the same tendencies as yesterday, which was that of shorts seeking to cover their contracts. Offerings came mainly from one of the leading packing-houses. Light receipts of hogs with higher prices at the yards imparted strength to provisions. Jan, pork closed 19c higher at \$15.29; lard was 5c higher at \$8.624, with ribs 24c higher at \$6.045.

Estimated receipts for to-morrow: Wheat 150 cars; corn 275; oats 235; hogs 22,000 head,

SOFTHERN CATTLE-Quarantine receipts were again liberal, there being is cars containing \$.00 head, against 15. cars and 4.77 head has thready and 122 cars and 4.25 head two weeks ago. Cows were in liberal proportion and mainly 56 he hear than the case of trace Monday; some thought it a flat dime lower, with slow movement. There was a fair run of bulls, for which about steady prices were obtained. There was an uneven trade, with a variation in experiences, but it was generally weak, compared with the strongest sales Monday. Considerable stuff was late, and salesmen hed back on the general after trade till noon or after though a few early sales were made at little if any change in prices. The bulk of the business, however, was mostly a dime lower, with considerable stuff weighed at a late hour.
